

CM-900S DUAL HSK COPE MACHINE

Speed up your material coping with the CM-900S Dual HSK Cope Machine. The CM-900S features a 10-second cycle time for two pieces of material and auto-sensing board width technology.

Dual Station Material Coping

Simultaneously cope two pieces of material with the CM-900S. The counter-rotating HSK spindles move back and forth to cope your material at the same time.

Auto-Sensing Board Width

The CM-900S Cope Machine is capable of auto-sensing your board widths. No more wasting time programming material width before coping.

Fast Cycle Times

The CM-900S boasts a combined 10-second cycle time for two pieces of material. Faster, more efficient board coping to speed up your production.

CM-900S Cope Machine Specifications

- 2x Counter-Rotating HSK Spindles
- Dual Station Material Coping
- HSK Quick Change Tooling
- 2-8 HP Spindles @ 7500 RPM
- Auto-Sensing Board Width For Faster Cycle Times
- All Servo Setup
- Presets For Fast Tool Changeover
- Cut Cycle Time: 10 Seconds
- Dust Collection: 2x 4" Outlets
- Compressed Air Required: 80 PSI
