Stile & Rail Machine

Material Hopper Feed System

The material hopper feed system allows you to load stacks of material and auto-feed the shaper.

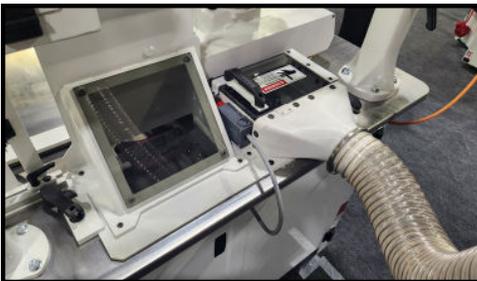

HSK Quick Change

HSK quick change tool release allows you to change profiles with the push of a button. Changeovers take less than 1 minute.

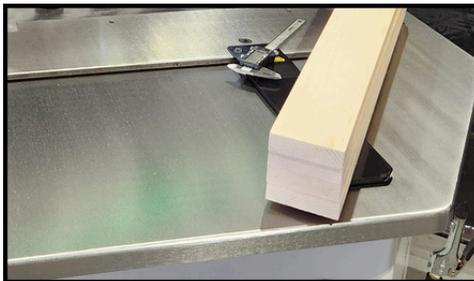

PLC Touchscreen Controls

Use the PLC touchscreen controls to digitally adjust settings on your machine for fast and easy changes.

Integrated Rear Fence/Dust Hood

The integrated rear fence and dust collection now move as one making adjustments fast and precise.

Solid Polished Steel Table Top

The solid steel table tops on woodworking machine from Ideal Machine ensure accurate and repeatable material processing.

Digitally-Positioned Outboard Sizing Fence

The outboard material fence allows for accurate stock sizing.

RM100 SPECIFICATIONS

- 8 HP at 12,000 RPM
- 230 volt or 480 volt
- Variable spindle RPM (Up to 12,000 RPM)
- Variable material feed speed: 20-60 Feet per minute
- Part length max: none
- Part length min: 5"
- Part width max: 8-1/2"
- Part width min: 1-1/2"
- Tool diameter: 5" (up to 7" available upon request)
- Dust collection: 1x outlet at 4"
